

Class visits to the media library

The purpose of the visits to the media library of the Alliance française are:

- To entertain and provide support to students who are learning French.
- To enable them to carry out their own research for books or documents on their own
- To make them want to come back by themselves or with friends.

2 types of visits are offered:

The « Découverte » (discovery) visit

Target audience: everyone, whatever the level of proficiency in French

Duration: 2 hours.

Activities:

- Presentation of the media library and its services
Presentation is available in French, Thai or English.
- The media library treasure hunt
Teams of students are told to search the resources of the media library so as to find a photo of a tourist place, a specific exercise to learn French and a recipe. The team who finds most such documents wins. Instructions are available in French, Thai and English.
- A choice of either short film screening or karaoke
The choice will be agreed upon between teacher and library staff. A list of short films and songs is available on request. For karaoke, songs must be studied in class before the visit.

The « Initiation à la recherche documentaire » (introduction to document research) visit

Target audience: university level, subject of document research will be determined according to students' proficiency in French

Duration: 2 hours.

Activities:

- How to undertake a successful documentary research?
The choice of research subjects will be agreed upon between professor and library staff. Students groups will need to understand and determine their research subject, define a problem and organize the information collected according to their research objective.
- How should library research be undertaken?
Explanation of document classification principles. Introduction to catalogue research and document retrieval. Which documents to research (dictionaries, encyclopedias) and how to use them?
- How to carry out research on Internet?
How to put queries to search engines, directories and databases specialized on matters French? How to assess the quality of an Internet site?

A good French meal!
